### Abstract:

Pediatricians can play important public roles as advocates for mitigation and adaptation strategies.

**Source:** <http://aapnews.aappublications.org/content/28/11/1.3>

### Resource Description

#### Exposure :

weather or climate related pathway by which climate change affects health

Unspecified Exposure

#### Geographic Feature:

resource focuses on specific type of geography

None or Unspecified

#### Geographic Location:

resource focuses on specific location

United States

#### Health Co-Benefit/Co-Harm (Adaption/Mitigation):

specification of beneficial or harmful impacts to health resulting from efforts to reduce or cope with greenhouse gases

A focus of content

#### Health Impact:

specification of health effect or disease related to climate change exposure

General Health Impact

#### Medical Community Engagement:

# Climate Change and Human Health Literature Portal

resource focus on how the medical community discusses or acts to address health impacts of climate change

A focus of content

## **Mitigation/Adaptation:**

mitigation or adaptation strategy is a focus of resource

Adaptation, Mitigation

## **Population of Concern:** A focus of content

## **Resource Type:**

format or standard characteristic of resource

Policy/Opinion

## **Timescale:**

time period studied

Time Scale Unspecified
